Capability Statement

Engineering Reliability. Delivering Performance.

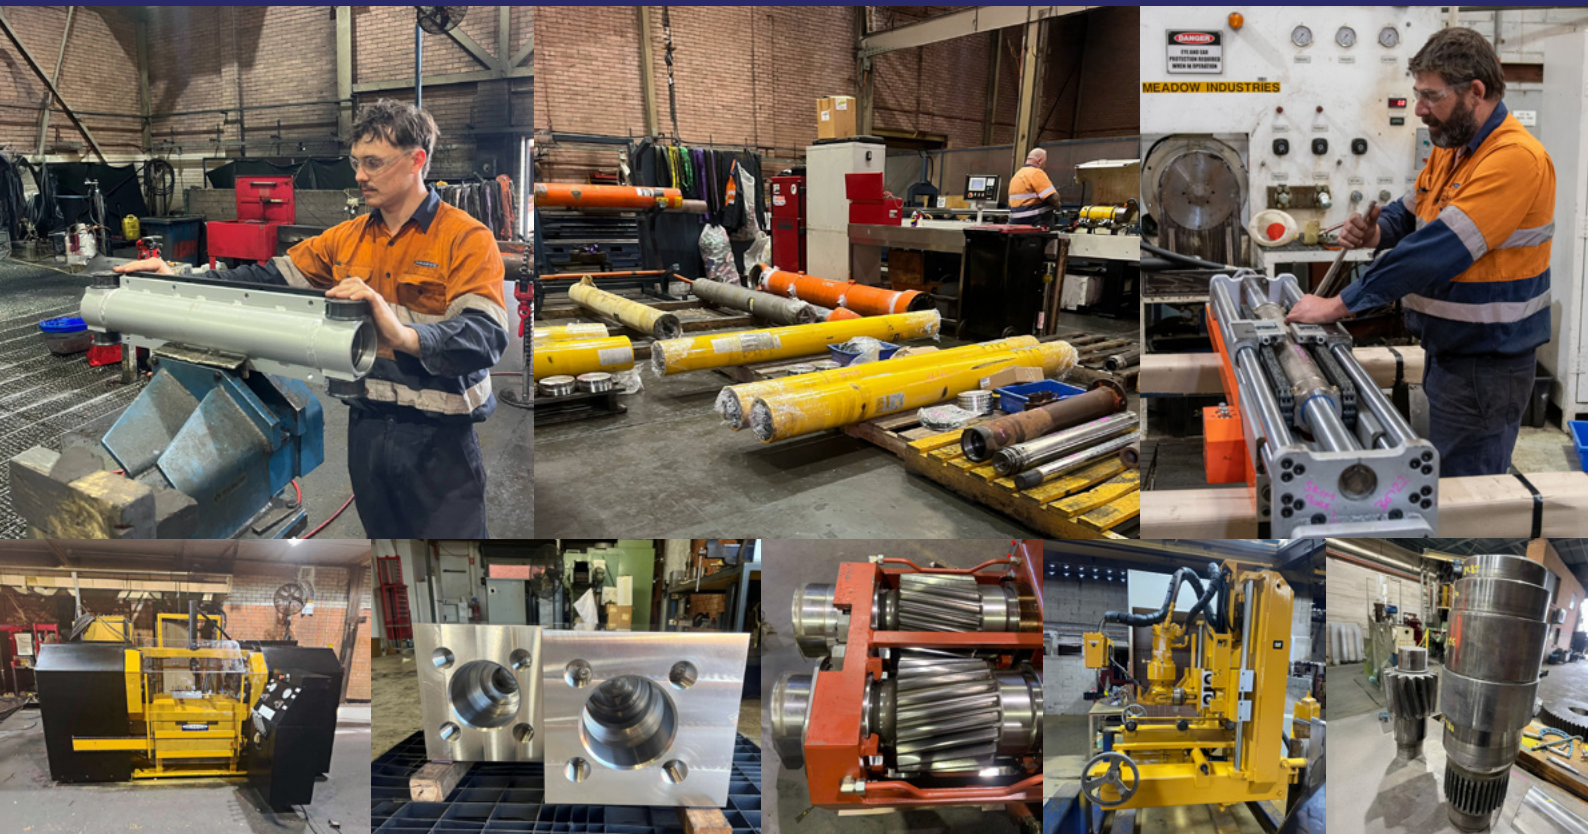

Company Profile

Founded in 1971, Meadow Industries is a trusted provider of precision engineering, hydraulic repair and machining services across Australia's most demanding industries.

We specialise in the repair, remanufacture and optimisation of critical equipment - helping our clients minimise downtime, extend asset life and maintain peak operational performance.

With purpose-built facilities, advanced equipment and a highly skilled workforce, we deliver practical engineering solutions backed by decades of experience.

What Sets Us Apart

- Over 50 years of engineering expertise
- Dedicated hydraulic and machining specialists
- Rapid response and field service capability
- Proven performance in mining, infrastructure and manufacturing

Our Approach

At Meadow Industries, our work is grounded in three core principles: Safety, Environmental Responsibility and Quality Assurance.

Safety

Safety is embedded in every aspect of our operations. We maintain strict compliance with industry standards and ensure all work, whether in-house or onsite is carried out with zero compromise.

- Certified systems and procedures
- Highly trained personnel
- Continuous safety monitoring and improvement

Environment

We are committed to minimising environmental impact through responsible operations and sustainable practices.

- Efficient use of materials and resources
- Waste reduction and recycling initiatives
- Environmentally responsible processes

Quality

Precision and reliability define our work. Every component is engineered, tested and validated to meet or exceed original specifications.

- End-to-end quality control
- Advanced testing and inspection
- Continuous improvement culture

Brands & Products

Meadow Industries supports a wide range of OEM and aftermarket components across hydraulic and mechanical systems.

We work with leading industry brands and provide solutions tailored to your operational requirements.

Our Offering Includes:

- Hydraulic cylinders and components
- Seals, kits and replacement parts
- Gearboxes and mechanical assemblies
- Custom-engineered solutions
- Remanufactured and exchange components

We ensure every product meets the highest standards of performance, durability and reliability.

ENERPAC

We are the **number 1 supplier** of Enerpac products in Australia

 **BRIKE**
CYLINDERS

CALZONI
HYDRAULICS

 **HSA**
Hydraulic Seals Australia

 **RAD**
TORQUE SYSTEMS

 **SOUTHCOTT**
Hydraulics & Control Systems

Capabilities

Meadow Industries delivers a full suite of engineering, machining and hydraulic services.

Cylinder Manufacture & Repair

- Complete cylinder rebuilds and remanufacture
- Precision honing and machining
- Full performance testing and validation

General Machining

- Manual and specialist machining services
- Component repair and modifications
- Custom machining solutions

CNC Machining

- High-precision CNC turning and milling
- Custom component manufacturing
- Tight tolerance machining

Precision Honing

- High-accuracy internal surface finishing
- Restoration of critical tolerances
- Consistent, repeatable results

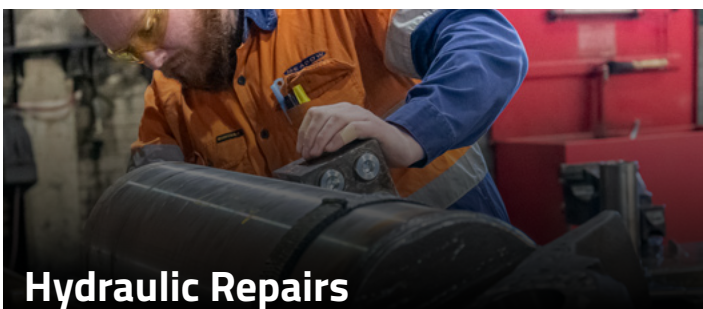

Onsite Testing & Calibration

- Onsite audits up to 10,000 PSI
- Testing capability handling up to 50,000 lbf.ft
- Complete calibration and testing at your site

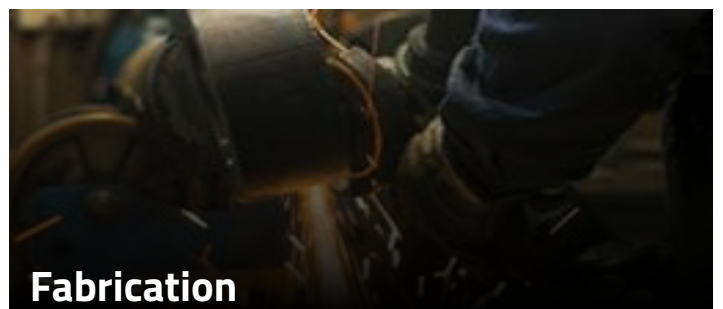

Mechanical Repairs

- Gearbox overhaul workshop
- Full range of gearbox testing equipment
- Component rebuilds and servicing

Hydraulic Repairs

- Comprehensive diagnosis, repair, and rebuild
- Seal replacement and component restoration
- Performance optimisation

Fabrication

- MIG, TIG, and Stick welding
- Bore welding capability
- Structural and component fabrication

Cylinder Exchange

When your operation can't afford to stop, our service exchange program gets you moving instantly "no lengthy waits, no lost revenue."

How it works

1

Grab an exchange unit

Pull a ready-to-go service exchange cylinder from our comprehensive stock.

2

Keep operating

Fit the exchange unit and get straight back to work - zero interruption to your schedule.

3

Send us your faulty unit

We repair your cylinder while you operate. No stress, no delays.

Quality you can count on

You're not getting a quick fix - you're receiving quality equipment built to perform. Complete confidence in reliability and performance, every time.

Careers

We are always looking for skilled, motivated individuals to join our team.

At Meadow Industries, you'll work alongside experienced professionals on complex and rewarding engineering projects that support critical industries.

Why Join Us

- Strong safety-first culture
- Hands-on, practical engineering environment
- Opportunities for growth and development
- Long-term career pathways

Be part of a team that takes pride in delivering precision, reliability and real-world results
